Sofa kilianza na wanachama 73, hivi sasa wamebaki watatu

Mpina avunja mkataba wa kituo cha ukuzaji samaki

Na MICHAEL KATONA, Ruvuma

WIARA ya Mifugo na Uvvi imevunja mkataba kati ya kituo cha ukuzaji wa samaki cha Ruwila, Wilaya ya Songea Mjini na wawekezaji wa kikundi cha Sofa, kilichokuwa kinaendesha kituo hicho, baada ya mwekezaji kushindwa kufikia malengo ya mkataba huo.

Akitangaza uamu huo mwishoni mwa wiki iliyopita mkoani hapa, Waziri wa Mifugo na Uvvi, Luhaga Mpina, aliyetembelea kituo hicho, alisema amegundua kuwa kinaendeshwa kwa hasara kwa miaka kumi tangu mwaka 2010.

Shughuli za ufugaji wa samaki kwenye mabwawa yaliyopo ndani ya kituo hicho, zilikuwa zikiendeleva na wanachama wastaifu wa kikundi cha Sofa, ambao wakati wanaanza, walikuwa 73, lakini mpaka sasa wamebaki watatu.

Waziri Mpina alisema serikali ya awamu ya tano inaendelea na mkakati wa kuwawezesha wananchi, hususan wajasiriamali, waweze kuinua uchumi wao kupitia ufugaji wa samaki, kwa kutengeneza mabwawa kwenye maeneo wanakotoka ili hatimaye wawe wazalishaji wa samaki.

Alisema lengo la serikali kwa sasa ni kumsaidia mwananchi aweze kunufaika na rasilimali za samaki kwa kufuga samaki kipitia vifaranga vinavyopatikana kwenye vituo vinavyosimamiwa na serikali.

"Kutokana na hali ya uendeshaji wa mabwawa haya ya serikali, kumekuwa na mwingiliano sana huku kukiwa kunaafanyika shughuli binafsi na za serikali. Hivyo, unaweza kufanya wizi na ikawa ni changamoto, hata huwezi kujua, sasa mashamba haya yote hayana uanganizli wowote, kwa hiyo usimamizi wa namna hii kwa vyovoyote vile utaleta changamoto.

"Kwa hiyo, Katibu Mkuu nakuagiza sasa uvunje mkataba huu mara moja na Sofa na kama Sofa wanahitaji kupata msaada kutoka kwenye wizara kusaidiwa kule watakapokwenda kuchimba mabwawa, hatutasita kufanya hivyo," alisema.

Alitaka Sofa wasikatishwe tamaa kwa kuwa tayari walishaanzisha hatua ya ufugaji wa samaki kwenye kituo hicho na Halmashauri ya Wilaya ya Songea Mjini iwasaidie kupata eneo lingine kwa ajili ya kutengeneza mabwawa yao.

Alisema mabwawa ya sasa yaliyopo, ambayo ni matatu, kila wanapovuna samaki wanayaachia, wasinyang'anywe.

Mkurugenzi wa ukuzaji viumbe maji, Dk Nazael Madala na Mwanasheria wa Wizara ya Mifugo na Uvvi, Shig' Magesa, kwa nyakati tofauti walisema kumekuwepo na ukiukwaji wa mkataba wa uendelezaji wa ufugaji wa samaki katika kituo hicho.

Dk. Madala alisema kihistoria, Sofa walikuwepo kwenye uendelezaji wa ufugaji wa vifaranga vya samaki wakati idara ilikuwa hajajaanza, lakini shughuli zake zilikuwa sio nzuri za uendelezaji na ufugaji wa samaki.

"Kama mtu hajafuata matakwa ya makubaliano yaliyoingiwa, inatakiwa waweze kushughulikiwa au wanatakiwa wawajibishwe kwa kutofuata makubaliano kama mkataba unavyosema," alisema Magesa.

Kiongozi wa Ushirika wa Sofa, John Jonathani, akielezea sababu za kushindwa kufikia malengo ya ufugaji wa samaki kama ambayo walikubaliana, alisema wastaifu walioanzisha walikuwa 73, lakini kwa kipindi kirefu hawakuweza kuusimamia mradi huo na ilipofika mwaka 2015, wastaifu wachache walikuwa wamebaki walishauriwa na uongozi wa mkoaa kama wengi wamekuwa au wameshindwa, waongeze nguvu kwa kushirikiana na wananchi wengine katika utaratibu wa PPP.

Watoto wanaovua samaki makorongoni waonywa

NA DANSOON KAIJAGE,
CHAMWINO.

WAZAZI wanaoishi karibu na makorongo yanayotiririsha maji kutoka bwawani wametakiwa kuwa makini na watoto wao ambao wamekuwa wakienda makorongoni huko kwa lengo la kuvua samaki kambare.

Ushauri huo ulitolewa na Diwani wa Viti Maalum wa Kata ya Iloje, Wilaya ya Chamwino mkoani Dodoma, Hilda Kadunda (CCM) alipozugumzia madhara yanayoeweza kujitokeza iwapo wazazi

hawatakuwa makini na watoto wao.

Alisema kwa kipindi ambacho mvua inaendelea kunyesha, maji mengi yanatoka katika Bwawa la mtera na kuingia kwenye makorongo mbalimbali na maji hayo yanafuriri na samaki aina ya kambare ambapo jamii kubwa hupenda kutumia fursa hiyo kuvua samaki kwa lengo la kuji-patia kitoweo na wakati mwininge kujiongezea kipato.

Kipindi kama hicho cha kuvua samaki hao hujulikana "mtaji rungu" kwa maana ya kila mmoja anaweza kumvua samaki kambare kwa

kutumia rungu kumpiga kichwani huku watoto wakilazimika kuingia kwenye maji yanayotembea.

"Wakati wa kipindi cha mvua kama hiki maji mengi hutoka bwawani na kuingia katika makorongo, maji hayo huwa na samaki wengi aina ya kambare, jamii ya huku kwa kuwa ni wavuvi hutumia fursa hiyo kuingia kwenye makorongo kwa kutumia rungu kwa ajili ya kuvua samaki hao.

"Samaki hao hsaidia jamii kupata mboga na wakati mwininge kupata samaki wengi ambao wanawain-gizia kipato" alisema diwani huyo.
