

Watano wafariki kwa ajali ya moto Dar

NA MUSSA KHALID,
DAR ES SALAAM

WATU watano wa familia moja wakazi wa kata ya Pugu Shesheni Mwanasara ya Hala pindi Dar es salaam wamefariki dunia usiku wa kwanza jana kwa ajali ya moto.

Imetofwa ajali hiyo ambayo ilitokea katika nyumba ya Edward Jeremiah Katemi ambaye ndiye baba wa familia hiyo imewababusha na hitilafu za umeme majita ya saa nne za usiku.

Akifanya mahojiano na Gazeti hili katika eneo la tukio jana pindi Dar es salaam Edward Katemi amesema waliifariki katika ajali hiyo ni pamoja na Mke wake Jackie Irene, Mdogo wake Ester Katemi na watoto wake watatu Edward Katemi, Edson Katemi pamoja na Fiston Katemi.

Katemi alisema umeme ulikuwa umekalika tangu majira ya asubuhi hivyo ulivyorudi ukazima kisha ukaripiti akasaka tena akasaharua nita ikasiza kupwaka na hivyo kusababisha moto kuwaka eneo.

zima la nyumba.

"Wakati narudi nyumba kutika kwenye mahabibi yangu nafika umeme nini ndi unatiti tikaona kwenye chuma cha ukuta ni kumapua cheche ndipo umeme akalipuka hivyo tuka hukaa pumama kwa na magani kufanya jili hata za kutanya mikonzi lakini ilidhulikana" alisema katemi.

Kwa upande wake Mwenyekiti wa Pugu shesheni Shikam Mohamedi Mwinjima alisema alipokea taarifa majira ya saa saba ndiko kutoka kwa mwananchi

wake kuwa nyumba hiyo imetohitafu ya umeme na kuanza kulipuka.

Mwinjima alisema mwananchi alimuambia waliitakiwa kuvutia nyumba hiyo na kutoa mali hiyo kisha kuwapeleka hospitali ya Nguvukazi Chandi.

Kamanda Msimba wa Jeshi la Polisi ACP Janet Magomi alidhahisha kutoka kwa tukio hilo ambapo alisema familia hiyo ya watu watano wamefariki kwa ajali hiyo ya moto.

"Baada ya kuchukua mali hiyo tumewakuta watu hawajapata hama

mabali wamepata majara ba mavyoonekana husha na tuliwachukua na kuwapeleka Hospitali Chandi hivyo upelelezi unadefea kuja hata chanzo chake na habari hizo ni za ukweli kabisa" alisema ACP Magomi.

Katika Hatua nyingine ACP Magomi aliwaliake watanchi kuwa mikiwa katika kipindi cha mvua hata wameishi mahondeni kurukua ta hadhiti ili kupulana na madhata yanayoweza kujitokeza yanayovalitishwa na mvua.

Wawili kizimbani kwa kuisababishia TCRA hasara ya Mil. 267.6

NA MWANDISHI WETU,
DAR ES SALAAM

WAKAZI wawili wa pindi Dar es Salaam, wamefikishwa katika mahakama ya Hakimu Mkazi Kisutu wakikabuliwa na mashitaka manne likiwemo la kuisababishia Mamlaka ya Mawasiliano Tanzania (TCRA) hasara ya Sh milioni 267.6.

Katika hati ya mashitaka iliyosomwa mahakamani hapo na wakili wa serikali Mwandamizi Wankyo Simon akisaidi ana na wakili wa Serikali Jackie Nyantoro na Yusiph Aboud imewafaja washitakiwa hao kuwa ni Baraka Mtunga (41) a mhandisi na mkazi wa Mikocheni na Mfanyabiashara Rajabu Katunda (42) anayenishi Kinondini.

Mbele ya Hakimu Mkazi Mkuu Kassim Matembele imedaiwa kati ya Desemba 13, 2019 na Sep-

temba 28 mwaka huu katika maeneo ya Hifadhi ya Taifa ya Saadani katika kiji cha Kapanjo wilayani Rungwe mkoani Pwani na maeneo ya pindi Dar es Salaam washitakiwa kwa pamoja waliitokeza gendele uhabili kwa jengo la kumepata taifa.

Ilengetelea kufuata kuwa siku na mabali hapo hapo washitakiwa hao walitumika na kutumia vitaa vya mawasiliano vya kielektroniki hili kuwa na leseni ya TCRA huku pini wakidaiwa kutimiza vitaa vya kielektroniki kusambaza mtandao wa intaneti bila kuwa na leseni.

Aidha katika shtaka la mne lililosomwa na wakili Nyantoro madaura washitakiwa wakiwa na ma ya kukwepa kulipa malipo balali ya mtandao, walisambaza huduma ya mtandao (WiFi) isivyo halali na kusababishia kwa TCRA hasara ya Sh 267,656,794.30.

Wananchi wakipata maelezo ya ulugaji bora wa semali kutoka kwa Afisa Uvun Mwandamizi, Nelson Mbwale wakati wakimbebea mabanda ya Wazara ya Mdogo na Uvun kwenye muonyesho wa Maadhimisho ya Siku ya Chukwazi Duniyanyayowenda kwenye Vwanya vya Mjumbani kitaka mkoani Njombe Oktoba 10-16, 2020

Katika shtaka la siku imedaiwa washitakiwa hao kwa pamoja waliphusisha na miamala hiyo ya kufedha huku wakijua fedha hizo ni za makosa ya kutuma vitaa vya mawasiliano kwa ulugaji na uhabili wa kupanqwa.

Hata hivyo washitakiwa

hawakuruhusiwa kujitua kitu chochote mahakamani hapo kwa kuwa mahakama hiyo haina mamlaka ya kusikiliza kesi za uhujumu uchumi ambazo kwa kawaida kusikilizwa mahakama Kuu.

Kwa mujibu wa upande wa mashitaka upelelezi wa

kesi hiyo bado haukamilika hivyo walinibitabarehe nyogua kwa ajili ya kutajwa na kesi hiyo imeharishwa bado Oktoba 27 mwaka huu na washitakiwa wamerudishwa rumande kwa sababu mashitaka yanayowakabili hayana dhamana kisheria.

Nasra Abdallah, Mwananchi
nabdallah@mwananchi.co.tz

Safari ya kuatafuta uhuru wa kiuchumi kwa Ester Ng'amilo (53), mkazi wa Tegeta Salasala jijini Dar es Salaam haikuwa ilelemani. Anepanda akashuka milima na mabonde.

Akianza na mtaji wa Sh300,000, mama huyu alilazimika kuacha kazi aliyoitumika kwa miaka saba na kujikita kwenye ufugaji kuku ambao kwa sasa sio tu umebadili maisha yake bali ya familia ya watu 25 aliowaajiri wakiwamo watunza bustani, kuku na wanaotengeneza kiki.

Ester, mama wa watoto wawili, amedumu kwenye ufugaji kwa zaidi ya miaka 25 sasa hasa ya kuachana na mwajiri wake, Shirika la Elimu Kibaha.

Dhanura ya kujikita kwenye ujasiriamali ilitokana na usumbufu alikuwa akiupata muda mfupi baada ya kuolewa mwaka 1990. Yeye na mume wake walikuwa wanaishi Dar es Salaam huyo akawa analazimika kwenda Kibaha kila siku. Kutokana na ugumu wa usafiri kipindi hicho, akaacha kazi.

"Nilika nikafikuria adha ya kila siku kupanda daladala kwenda na kurudi Kibaha, kipindi hicho na usafiri ulikuwa ni wa tabu, nikaamua kujajiri katika ufugaji," anasema Ester.

Aliyoyanza ufugaji

Hata akiwa bado kazini, Ester anasema alikuwa anafuga kuku nyumbani kwake, maeneo ya Kijitonyama walikopanga.

Kipindi hicho anasema alikuwa akifuga kati ya kuku 500 hadi 1,000 wa nyama Mambo yalibadilika kuanzia mwaka 2000 jirani yake alipomweleza kuhusu kuwaji kwa eneo linalozwa Salasala.

"Kwa kuwa nilikuwa nina hamu ya kuongeza kuku, nihenda kupona na niliridhika napo. Nihitunua eneo hilo la ekari nne kwa awamu tano. Nimepanga nyumba ya kusha, kuweka mifugo na nalima."

Ujasiriamali

Kutana na Ester katika simulizi ya ufugaji uliomba ubilionea

anasema.

Wakati anahamia huko, anasema alikuwa na kuku 1,000 ila sasa wamefika 16,000 wote wakawa wa mayai kwani kutokana na kuyumba kwa soko wakati wa corona, aliachana na wale wa nyama.

Kwa kuku alionao, kwa siku anasema huwa anaokota zaidi ya trefi 250. Kabla hajaachana na,

anasema kwa wiki alikuwa anatoa kuku 5,000 wa nyama lakini kufungwa kwa hoteli kipindi cha corona kuliondoa wateja wake muhimu. "Kumkuza kuku mmoja wa nyama mpaka anafika muda wa kufaa kuuzwa ni Sh4,500 wakati wa mayai anagharamu Sh7,000," anasema.

Ingawa alianza kwa Sh300,000 zilizotokana na akiba yake, anasema kura mambo mengi yame-

toka ndani ya miaka 25 ya ufugaji wake yaliyochangia kukuza mtaji anabao sasa ni zaidi ya Sh1 bilioni.

Hapa anaitaja Benki ya Akiba (ACB) kuwa mkombozi wake kwani iniemlea tangu mwaka 1992 alipokuwa anaanza mpaka sasa, "Nilianza kukopa Sh500,000, Nikahitaji mkopo,

naupata ndani ya wiki moja hivyo kunirwezesha kufanya shughuli zangu kwa wakati," anasema.

Ofisa mikopo wa Benki ya ACB, Melkisedec Muhesi anasema ukiachilia mbali uaminifu alinao, Ester ni mfanyabiashara anayetunza kumbukumbu zake kimaandishi jambo linalowaruhisishia kujua mahitaji yake.

INAENDELEA UK 14

25

**Mika ambayo Ester
Ng'amilo amejikita kwenye
ufugaji kuku.**

"Kumkuza kuku mmoja wa nyama mpaka anafika muda wa kufaa kuuzwa ni Sh4,500 wakati wa mayai anagharamu Sh7,000."

CHAGUA CCM

Utatuzi wa kero za wafugaji unavyompaisha Rais Magufuli

■ Watangaza kwamba kura zao zitakwenda kwa CCM

NA LILIAN JOEL, ARUSHA

TANZANIA ni miongoni mwa nchi ziliyobanikiwa kuwa na idadi kubwa ya mifugo ya aina mbalimbali.

Inakadiriwa asilimia 62 ya wakazi wa vijijini na 23 ya wakazi wa mijini wanafuga aina mbalimbali za mifugo, ikiwemo kuku, mbuzi, ng'ombe, nguruwe na mifugo mingine.

Kwa mujibu wa wizara ya mifugo inakadiriwa wastani wa ng'ombe milioni 33.4, mbuzi milioni 21.3, kondoo milioni 5.6, nguruwe milioni 2.1 milioni, punda milioni 657,389 na kuku wa asili na wa kisasa wapatao milioni 83.3.

Mifugo hii huchangia ukuaji wa uchumi na pato la taifa kwa asilimia 7.4, ambapo katika mwaka 2019/2020 sekta ilikuwa kwa asilimia tano.

Sekta ya mifugo, licha ya kuchangia uchumi na pato la taifa, ni nguzo muhimu katika usalama wa chakula kichini, ambapo huziba pengo ambalo bila uwepo wa mifugo serikali ingelazimika kutumia fedha nyingi za kigeni kuagiza kutoka nje ya nchi nyama, maziwa, ngozi, mayai, kuku na bidhaa mbalimbali za mifugo.

Kutokana na serikali kutambua umuhimu mkubwa wa sekta ya mifugo, wafugaji nchini, kuna kila sababu ya kumuunga mkono mgombea urais kwa tiketi ya Chama Cha Mapinduzi (CCM), Dk. John Magufuli.

Alizungumza kwa nyakati tofauti katika ziara ya mikoa mbalimbali hapa nchini ya kusikiliza kero zinazowakabili wafugaji wanaoishi pembezoni mwa hifadhi za taifa, mapori tengefu, mapori ya akiba na maeneo ya wafugaji yaliyopakana na wakulima, Mwenyekiti wa Chama Cha Wafugaji Tanzania (CCWT), Jeremiah Wambura anasema, wafugaji wameamua kwa kauli moja kumuunga mkono Rais Dk. Magufuli, kutokana na mchango wake mkubwa katika sekta ya mifugo hata kabla ya kushika nafasi hiyo.

Wambura anasema, wafugaji hawawezi kuwa wafugaji bila kuwa na mifugo inayolindwa kisheria.

Anasema mwaka 2008-2010 mifugo ilikuwa inauwawa kwa kupigwa risasi wanapoingia katika

mapori tengefu na hifadhi za taifa, lakini Rais Dk. Magufuli alipokuwa waziri katika kipindi hicho, alihakikisha sheria ya ustawi na haki za mifugo ya mwaka 2010 matungwa.

"Baada ya sheria hiyo kupitishwa bungeni, Rais Dk. Magufuli alipokuwa waziri alihakikisha kanuni zinatumwa na kusami.

Leo mifugo haiuwa, baada ya kuchaguliwa mwaka 2015 amendelee kuwatambua wafugaji na kuwaongezea maeneo ya malisho, kughesha mifugo, malambo ya mifugo kurywea maji na hii ni sababu kubwa ya kuhakikisha anakuwa rais, aendeke kulinda maslahi yetu," anasema.

Anasema, ilani ya CCM ya mwaka 2020-2025 imelenga kumalisha huduma za maji, malisho na vyakula vya mifugo, kwa kubainisha na kutenga maeneo ya ufugaji kwa kutambua, kupima, kusajili na kumalisha kwa wafugaji ili kuongeza maeneo yaliyotengwa kutoka hekta milioni 2,788,901 hadi hekta milioni sita.

Anasema, ilani ya CCM inasema itaelekeza serikali kuongeza malambo na matwawa ya maji ya mifugo kutoka 1,384 yaliyokuwepo awali hadi 1,842 na visima 103 hadi 225, ili kurahisisha upatikanaji wa maji kwa ajili ya mifugo.

Kuhusu uogeshaji wa mifugo amesema, ilani hiyo imesema maeneo yote yenye majosho katika vijiji vyote nchini yatatambuliwa, kupimwa na kupatwa hati miliki, ili mifugo iogeshwe bila kubughudhiwa.

"Ilani hii ni rafiki kwa wafugaji, inasema kila kuji chenywe mifugo kitakuwa na joshoni linalofanya kazi kwa kuzingatia ratiba ya uogeshaji wa mifugo na kutoa dawa za rutuku ya kuanzia, kwa ajili ya kuoghesha mifugo kwa kuzingatia bei elekezi inayotolewa na serikali."

Anasema, kuanzia sasa mifugo haitakufa ovyo, kwa sababu ilani hiyo imeweka bayana kuwa, kaboresha huduma za mifugo kwa kuhakikisha mikoa 18 kati ya 26 nchini, ambayo huina vituo vya uchunguzi wa magonjwa ya mifugo, vinajengwa vituo vya kisasa vya uchunguzi wa magonjwa utakaokwenda sambamba na kila wilaya hapa nchini kuwa na maabara na kilini ya mifugo.

Anaongeza, pia ilani inasema itahamasisha sekta binafsi kuwekeza kwenye ujeruzi wa viwanda vidogo, vya kati na vikubwa, kwa lengo la kuongezea thamani mazao yatoanayo na mifugo na kuhakikisha malighafi baki ambazo ni pembe, kwato, manyoya na mifupa baada ya kuchinja mifugo zinaingizwa kwenye mnyororo wa thamani, ili kutengeneza bidhaa mbalimbali.

Kuwahamasisha wafugaji kujiunga katika vikundi au vyama

vya ushinka na kuwaunganisha na taasisi za fedha, kwa ajili

ya kupatwa mikopo ya kuwawezesha kukuza sekta ya mifugo nchini.

Ilani ya CCM ya mwaka 2020-2025 ni ilani ya kipekee haswa katika ufugaji, ambapo imegusa maeneo yote yanayohusu sekta hii kwa uchumi wa nchi.

Hiyo, sisi wafugaji kwa sababu tuna imani kubwa na Rais Magufuli tumekubaliana kwa pamoja kuwa tutahakikisha anapata ushindi wa kishindo kwa sababu ni mwadilifu na mchapakazi akiachidi anatekeleza," anasema.

Mwenyekiti wa Malaigwanani wa Kanda ya Arusha na Manyara Lengitai Lemkoko anasema wafugaji wana kila sababu ya kumchagua Dk. Magufuli kutokana na dhambi ya dhiti aliyoonyesha kwa kipindi cha miaka mitano ya kutetea maslahi ya wafugaji hapa nchini.

Kwa mujibu wa Lemkoko, Rais Magufuli anawathamini wafugaji na amewapa hesima kubwa katika kipindi cha uongozi wake kwa kuunda tume na waziri kutoka wizara nane ambayo imezunguka maeneo mbalimbali nchini kwa ajili ya kutatua migogoro inayowakabili wafugaji na wakulima, wafugaji na maeneo ya mapori tengefu na hifadhi za Taifa.

"Wakati tume hiyo ikendelee na kazi, kutembelea maeneo yenye migogoro, Rais Magufuli alitoa tamko wananchi wote wanaoishi pembezoni mwa maneno yenye migogoro wasibughudhiwe na mtu yeyote, hali ambayo imetupa matumaini makubwa kwa sababu asilimia kubwa walikuwa wafugaji," alisisitiza kiongozi huyo.

Anasema kipindi cha miaka mitano ya Rais Magufuli kwa Wilaya ya Monduli amerejesha hekari zaidi ya 1,000 za mashamba, zilizokuwa zinamilikiwa na wawekezaji walokuwa wamehindwa kuerdeleza kwa miaka mingi.

"Mwenyekiti Wambura mpelekee mgombea urais kwa tiketi ya CCM Dk. John Magufuli salam zetu kwamba awe na amani Oktoba 28 mwaka huu jami yote ya kifugaji katika ukanda huu tumekubaliana tutampiga kura zote za 'ndio', ili aendelee kuongza nchi kwa miaka mitano mingine kwa sababu tangu ainge madarakani mwaka 2015 ametatua kero mbalimbali za wafugaji hapa nchini."

Mwenyekiti wa Baraza la Wafugaji Wilaya ya Ngorongoro, Edward Maura anasema, wilaya ya Ngorongoro itaongoza kwa kura za Dk. Magufuli kati ya wilaya zote hapa nchini.

"Tunaomba kukuhakikisha kwamba licha ya changamoto zetu wilaya ya Ngorongoro tutaongoza kutaifa kwa kumpiga kura Dk. Magufuli na ushindi wake ni asilimia mia moja na kwamba wamombea urais wa vyama vingine hawatapata kura."

Langwan Teu Matagi, kutoka Mikoa wa Tanga anasema, Rais Magufuli ni zawadi kutoka kwa Mungu kwa nchi ya Tanzania. Hiyo, wana kila sababu ya kumpiga kura kwa kuwa amepa hesima nchi katika sekta mbalimbali ikiwemo elimu bure, ambapo watoto wa wafugaji wameongezea wigo wa kupata elimu.

Anasema, katika Mikoa wa Tanga kuna baadhi ya vijiji vimepewa hati miliki, kwa ajili ya shughuli za ufugaji pekee hali ambayo inadhihirisha bayana ni jinsi gani serikali ya awamu ya tano imewajali wafugaji.

"Mimi ni mikazi wa Kijiji cha Msonera, ambacho tuna hati miliki inayoonyesha kuwa ni kijiji cha wafugaji na kilimo hakiruhusiwa katika vijiji vyetu, licha ya uwepo wa wavamizi wanaotaka kuanzisha kilimo lakini tuna imani kubwa na Rais Magufuli wafugaji tutampiga kura, ili atuongeze kwa kipindi lingine cha miaka mitano."

Anasema, ilani ya CCM ya mwaka 2020 imeshesheeni fursa nyingi zinahusu wafugaji, kwa kuwa Rais Magufuli akiachidi anatekeleza hawana shaka juu ya ilani hiyo.

Lipumba aahidi tekonojia ya uvuvi Mtera

Janeth Joseph, Mwananchi
joseph@mwananchi.co.tz

Isimani. Mgombea urais wa Chama cha Wananchi (CUF), Profesa Ibrahim Lipumba amesema aki-chuguliwa, atapenyeza tekonojia mpya ya ufugaji na uvuaji samaki katika Bwawa la Mtera lililopo mkoani Iringa.

Tekonojia hiyo amesema itasaidia kupunguza ukosefu wa ajira hasa kwa vijana nchini. Sambamba na hilo, ameahidi kutoa mtaji wa ufugaji samaki ili kuongeza uzalishaji na tija.

Aliyasema hayo katika mkutano wa hadhara uliofanyika Migoli, Jimbo la Isimani alikokuwa aki-omba kura jana.

"Najua hapa Iringa kuna wavuvi wa samaki katika Bwawa la Mtera lakini wengi wao wameshindwa kuendelea na shughuli za uvuvi kutokana na sababu mbalimbali ikiwamo ya kukamatwa na ushuru mkubwa. Tunahitaji kulinda mazingira yenu ili haki ziweze kutendeka, tupeni kura zenu wavuvi muweze kupumua na kuwapunguzia ushuru na shughuli zenu ziweze kuendelea katika hali nzuri," alisema Profesa Lipumba.

"Najua vijana wengi hamna ajira, niwahakikishie wavuvi wote hapa Mtera, ipo tekonojia nzuri ya kufuga samaki hasa kwenye mabwawa makubwa kama hili la Mtera, tunaomba kura zenu ili tuweze kuwapenyzeza tekonojia hiyo mpya ya ufugaji samaki, tuwape mtaji wa kufuga samaki muweze kuongeza uzalishaji na

SEKTA MUHIMU NCHINI

Tanzania ina rasilimali nyingi za mifugo na uvuvi lakini mchango wake ni mdogo katika uchumi wa Taifa. Mwaka 2018/19, taarifa zinaonyesha sekta ya mifugo ilichangia asilimia 7.6 wakati uvuvi lilikuwa asilimia 1.7. Sababu za mchango mdogo ni uwekezaji mdogo wa sekta binafsi, uzalishaji duni viwandani na ukosefu wa mtaji na mazingira magumu ya kufanya biashara.

Kwa mwaka, Tanzania inatumia Sh100 bilioni kuagiza samaki, mazhwa na nyama kutoka nje ya nchi na inatumia Sh251 bilioni kuagiza chakula cha mifugo na samaki. Iwapo bidhaa hizi zingezalishwa nchini, inaaminika zingelea ajira, kuongeza mapato na kukuza uchumi wa nchi.

Mgombea urais kwa tiketi ya CUF, Profesa Ibrahim Lipumba akizungumza na wanachama na wafuasi wa chama hicho wakati wa mkutano wake wa kampeni uliofanyika katika viwanja vya Chanika, Handeni Mjini mkoani Tanga juzi. Picha na Janeth Joseph

mpate kipato kizuri cha kukidhi mahitaji yenu," alisema.

Mgombea huyo alisema samaki wana soko kubwa duniani na nchini na mahitaji yao ni makubwa, vijana wakiwezesha kuwafuga kwa wingi kwa tekonojia ya kisa-sa, tatizo la ajira litapungua kwa kiwango kikubwa katika maeneo yenye mito mikubwa na mabwawa.

"Tupeni kura zenu tukayasimamie mambo haya tuwape vijana wetu uwezo wa kutumia tekonojia bora kuzalisha samaki kwa wingi. Tanzania inakabiliwa na changamoto kubwa ya ajira kwa vijana na hii ni moja ya suluhisho," alisema Profesa Lipumba.

Gazeti hili lilizungumza na baa-

dhi ya vijana waliohudhuria mkutano huo ambao walleleza changamoto wanazokabiliana nazo ukiwamo ukosefu wa ajira.

"Vijana wengi hapa hatuna ajira, maisha yetu magumu sana na wapo wengine waliomaliza mpaka vyuo vikuu tunao hapa lakini hawana ajira. Ahadi kama hizi kama kweli zikutekelezwa, basi itakuwa mkombozi kwetu," alisema Mussa Rajabu mkazi wa Migoli.

Alisema ahadi za mgombea wa CUF zinafaraji na kuonyesha mwanga kwa sababu vijana wengi wa eneo hilo ni wavuvi, wakiwezesha kuwa na mabwawa ya kufugia yatawainua kiuchumi hivyo kuondokana na utegemezi

kwa ndugu au marafiki hivyo kushiriki katika maendeleo ya Taifa lao.

Naye mgombea ubunge wa chama hicho Isimani, Nasma Upetu aliwaomba wananchi wa jimbo hilo kumchagua ili akawasilishe kero zao na kusimamia utatuzi wake kwa manufaa ya wananchi wote.

"Najua mkutano wa leo sio wan-gu lakini wananchi wa Isimani msifanye makosa, nichagueni mimi Oktoba 28 nikawasilishe kero zenu. Nitumieni nikawatumikie na mpigieni kura nyingi Profesa Lipumba kwa sababu ana ndoto kubwa ya kuwatumikia kwa dhati," alisema Nasma.

TAIFA

Lissu aahidi kuunda tume ya kuchunguza kero za wavuvi

Na Waandishi Wetu

MGOMBEA urais (CHADEMA) Tundu Lissu, jana alilazimika kutumia usafiri wa boti kwenda visiwa vya Ukerewe kuwafikia wapigakura baada ya kukosa kivuko ambacho ilidaiwa kiko kwenye matengenezo.

Katika kampeni zake, Lissu alisema akingia madarakani, jambo la kwanza ataunda Tume ya Majaji wa Mahakama za Juu kuchunguza matukio yote ya kumiza watu, kuteka watu, kutia umaskini ambayo yamefanyika kwenye mwambao wa Ziwa Nya-sa, Ziwa Tanganyika na Ziwa Victoria, ili kufahamu nani aliamuru hayo kutokea, aliyetekeleza na kuchukua hatua kwa mujibu wa sheria za nchi.

"Hakuna sheria ya nchi inayosema ukikuta mtu Ziwa Tanganyika au Victoria adhabu yake kifo, mimi sijaona sheria ya namna hiyo, tutachunguza matukio yote ya mauaji ili tufahamu nani

aliyeamuru, aliyetekeleza na nani ashughulikiwe," alisema.

"Kwa sababu kuua ni kosa, lazima wote walioathirika waliouliwa ndugu zao wafidiwe, walioumizwa wafidiwe, waliotiwa umaskini wafidiwe," alisema.

Alisema jambo la pili litakalofanywa ni kubadili sheria na kanuni za uvuvi ili kuhakikisha mambo mabaya hayatokei kwa makundi hayo.

Lissu alisema jingine atakaloshughulikia ni miundombinu karibu na Kisorya ambako kuna umbali mdogo na Kisiwa cha Ukerewe chenye watu zaidi ya 300,000, akiahidi atajenga daraja ili wapate usafiri wa uhakika.

Alisema alilazimika kutumia usafiri wa boti baada ya mara kadhaa kuambia kivuko hicho ni kibovu jambo ambalo kwake aliona ni mbinu kumzuia kuwafikia wananchi wa eneo hilo.

Akizungumza akiwa ndani ya boti hiyo, Lissu alisema zaidi ya mara mbili amefika eneo la Kiso-

rya ili kuvuka lakini alishindwa kwa sababu zilizotolewa na wasimamizi wa kivuko hicho.

"Nimepanda boti baada ya kukosa Kivuko cha kupanda, nilikuja wiki mbili zilizopita kwa ajili ya kampeni, lakini nilishindwa kupanda, yote hii ni kutuzulia tusivuke, lakini tumetumia usafiri mwingine na tumevuka salama, haya yote tumeona ni namna ya kutuzulia kupanda usafiri huo kuwafikia wananchi wa Ukerewe kwa ajili ya kuwafikishia taarifa.

"Kwetu ni Singida, hatuna ziwa, sijawahi kuogelea, lakini nikawaambia watu wangu kama ni kuogelea nitajifunza leo, lakini niende Ukerewe nikazungumze na wana Ukerewe, ninasikia polisi walitaka kuzuia huu mkutano, hawaruhusiwi kuzuia zaidi ya kulinda usalama. Nilisema hata wanizuike lazima nije hapa.

"Poleni sana kwa haya, msivunjike moyo yana mwisho haya na mwisho wake ni Oktoba 28 mwaka huu. Ninawashukuru

kwa kuwa sehemu ya kitovu cha mabadiliko ya nchi hasa Kanda ya Ziwa," alisema.

Kwa mujibu wa Lissu, namna ya kumwenzi Baba wa Taifa siyo kuruhusu wanaomheshimu kutoa heshima alikolala, bali kuyaishi mawazo na fikra zake ambazo wengi wameshindwa kuyaenzi. Mgombea huyo alisema ilani ya CHADEMA inazungumzia uhuru, haki na maendeleo ya watu na kwamba mwaka 1968 aliandika kitabu na kukfita 'Uhuru na Maendeleo', ambacho alisema maendeleo maana yake ni maendeleo ya watu na siyo vitu. Alisema wananchi wa kisiwa na maeneo hayo ni wavuvi, lakini hali zao ni mbaya kwa kuwa kuna waliopoteza maisha, kuchomewa nyavu na mitumbwi na wengine wameishia kwenye umaskini mkubwa. "Ninasema mkinichagua Oktoba 28 mwaka huu, haya mambo ya kumyan-yasa wavuvi, kuwatia umaskini itakuwa ni mwisho," aliahidi.

Tarehe 14/10/2020

Lissu: Tutatunga sheria wafugaji kulisha mifugo katika hifadhi

Peter Elias, Mwananchi
pelias@mwananchi.co.tz

Dar es Salaam. Mgombea wa Chadema wa urais, Tundu Lissu amesema akiwa Rais atatunga sheria itakayowaruhusu wafugaji kulisha mifugo kwenye hifadhi kama walivyokuwa wakifanya kabla ya kutangazwa kuwa za Taifa.

Pia, mgombea huyo amerudia hoja zake kuhusu kufuta vitambulisho vya wafanyabiashara wadogo vinavyotolewa kwa Sh20,000, kuanzisha bima ya afya kwa wote, kupunguza kodi kwa wachimbaji, kuboresha mapato ya wakulima, huku akisisitiza mambo matatu ya ilani ya chama hicho; uhuru, haki na maendeleo ya watu.

Lissu alisema hayo jana katika mikutano yake ya kampeni iliyo-fanyika Bulyankulu wilayani Kahama, na pia wilaya za Mbogwe na Bukombe mkoani Geita, maeneo ambayo shughuli za kuchumi ni pamoja na kilimo, ufugaji, uvuvi na uchimbaji madini, huku yakiwa karibu na hifadhi.

Alisema kabla kutangazwa kuwa hifadhi za Taifa, wafugaji walikuwapo na walikuwa wakushi vizuri na wanyamapori bila kuathiri mazingira kama inavyodaiwa.

"Tarehe 29 itakayofuata (siku moja baada ya kupiga kura) haku-mu mtu atakamatiwa mifugo yake tena kwa sababu itapitisha sheri-aitakayoruhusu wafugaji kuchun-ga katika maeneo ya hifadhi kama ambavyo walikuwa wakichunga kabla ya hifadhi hazitatangazwa," alisema Lissu huku akishangiliwa.

Mbunge huyo wa zamani wa Singida Mashariki alisema wafugaji wa Mbogwe na maeneo mengine ya jirani wamekuwa

wakinyang'anywa mifugo yao kwa kisingizio cha kulisha katika hifadhi za Taifa.

Lissu pia alisema atapunguza utitiri wa kodi kwa wachimbaji wadogo, kuboresha hali za wafanyakazi na kurekebisha uchakataji wa mafao yao, akiahidi kutenda haki kwa kila mwananchi ili afurahie maisha.

"Tupeni Serikali, tutaondoa huu utitiri wote wa kodi mnazolipa, tunataka wachimbaji wadogo muufaike na madini yenu," alisema Lissu wakati akizungumza na wananchi wa Kata ya Bulyankulu wilayani Kahama.

Kuhusu vitambulisho vya wafanyabiashara wadogo, Lissu alisema alirudia kauli yake kuwa atavifuta na atawataka waliokusanya fedha hizo kuzirudisha kwa wananchi.

"Hivi vitambulisho vya wafanyabiashara ni wizi mtupu. Hatuwezi kuacha viendelee kutolewa, tuta-vifuta na kuwalazimisha wanaokusanya hizo fedha kuzirudisha," alisema Lissu.

Alisema wachimbaji wadogo wamekuwa wakitozwa kodi kwa kila hatua wanayofanya kuanzia kuingia shimoni mpaka hatua ya kuuza madini yao.

Akizungumzia suala ya kodi, mchimbaji mdogo wa Bulyankulu, Mashaka Masalu alikiri kwamba kuna kodi nyingi ambazo wanatozwa ikawemo kutambulisho cha mfanyabiashara.

"Tumeambiwa ukitaka kuchimba madini lazima uwe na kutambulisho, kwa hiyo tumelipia Sh20,000 kupata kutambulisho. Ukipeleka mchanga kwenye karasha kuna tozo yake, ukitaka kuuza madini yako pia kuna kodi lazima ulipe," alisema.

NOKU

"Tutapeleka muswada bungeni kuruhusu wafugaji kulisha kwenye hifadhi, sio dhambl"

TDB pondering next step as school milk programme is whittled down

FURTHER steps to improve milk production and water consumption.

The school milk programme was spearheaded by the International Agency for Food Safety and Food Security (IAFFS), avoiding the great risk under the theme of improving the health status of pupils and promoting milk drinking culture from the government level.

The World Health Organisation (WHO) recommends that an individual needs to drink at least 2.5 litres of milk in a year to get the most out of the milk intake level at 14 litres milk per capita.

The programme was well supported by key donors, dairy stakeholders like Kariakoo and Tanganyika dairy groups. The purpose was to create stable demand for milk, boosting milk yields and incomes among small scale dairy farmers.

During the 14 year period, the programme saw the birth of milk worth 100,000 litres, freely distributed to pupils in 200 primary schools nationwide. This was close to 80,000 pupils in ten regions, namely Kilimanjaro, Arusha, Tanga, Dar es Salaam, Iringa, Morogoro, Shinyanga, Mbeya, Zanzibar and Mara.

Health researchers have shown that the programme contributed to improving children's mental, cognitive and physical health, giving a key role to continued milk school distribution. But in the 2019 fiscal year, a phasing out of the long-standing Inter-Territorial milk programme was decided.

The move was a result of a decision by the Tanzania Milk Producers' Union (TDB) to phase out the number of beneficiary schools to 10, a reduction of the previous number. People in the schools were excluded from receiving the milk service as the programme remains in three regions, namely Kilimanjaro, Arusha and Tanga. It is a decision to phase out the milk service in the other regions.

In an exclusive interview with The Guardian, Assistant Registrar of TDB, Njiragu, outlined a series of initiatives that the board is taking to improve the general performance of the sector ranging from improving milk production, distribution, processing as well as consumption in different communities.

The board is currently working with key stakeholders in the sector to improve the milk production, distribution, processing as well as consumption in different communities. ing and positions during relating to improved dairy cattle.

"When it comes to milk production, the sector will play a major role in ensuring milk yields among farmers, supplying local milk processors to improve production and distribution," he said.

There are also plans to train pastoralists on milk processing, recommended health practices for milking their cattle in order to process milk to obtain the right quality of fresh milk for high grade milk processing.

In Kilimanjaro, the Permanent Secretary for Livestock, Njiragu, attended the launch ceremony during an event to mark the start of the World School Milk Feeding Week held in Kilimanjaro Region.

The said Tanzania is placed second in the continent for having large number of livestock, currently with at least 35 million cows, out of which 15 million are traditional types.

During 2019/20, the country produced 1.5 million litres of milk, out of which 2.5 million is produced from traditional cows and the rest came from hybrid cows.

However, the milk produced is still not reflecting the country's actual demand, hence the need to support milk from other sources.

In addition, during 2017/18, Tanzania imported liquid milk worth 1.5 million dollars, while for 2018/19, the import value was 1.2 million dollars.

However, the local production of the TDB technology milk distribution, the country's importation of fresh milk keeps declining.

However, records show that Tanzania has successfully managed to increase the number of registered dairy cattle from 24,000 in 2007/08 to 1,294,662 in 2018/19, a change which saw the country's milk production expand from 2.5 million litres to 2.7 million litres.

One among the top challenges crippling the country's milk processing industry is poor supply of milk from domestic farmers.

Njiragu says the poor supply is attributed to an already saturated rural infrastructure network that frustrates farmers' ability to timely send milk to processors.

"To address the setbacks, the board is looking forward to expand availability of milk collection bank centers in rural areas with substantial dairy cattle farmers," he said.

Milk collection centers (MCCs) are being placed by TDB in different areas where some centers have been established with special milk cooling tanks to safely preserve milk for a week, with the capacity to cool 50,000 litres a day.

TDB will continue working with key stakeholders, including milk processors to educate and motivate farmers to form groups in order to improve chances of trading their milk via milk collection centers.

Collection centers are friendly to farmers as they allow them with reliable markets for their milk production, with the farmers paid on a weekly basis so they can continue to be served.

The country has 10 milk processing factories with capacity to produce 100,000 litres per day but due to low production and availability of milk from farmers, the industries only process 30,000 litres, just around a quarter of the production capacity.

ARUSHA INTERNATIONAL CONFERENCE CENTRE

IN MEMORIAL OF MWALIMU JULIUS KAMBARAGE NYERERE

21 YEARS
1999-2020

Management and Staff of Arusha International conference centre join His Excellency Dr. John Pombe Magufuli and all Tanzanians to commemorate the 21st memorial Anniversary of the passing of Father of the Nation, Mwalimu Julius Kambarage Nyerere.

Mwalimu, a true son of Africa, will best be remembered for his integrity, his ability as a political orator and organizer, and his readiness to work with different groupings, to achieve what was best for a stable, peaceful nation.
