Nane>> Idadi ya meli za uvuvi zitakazonunuliwa na serikali

Silinde awaonya watumishi watakaotafuna fedha za miradi

Na SEIF TAKAZA, IRAMBIA

SERIKALI imesema haitamfumbia macho mtumishi yeyote wa umma atakayefanya ubadhirifu wa fedha za miradi ya maendeleo kwa wananchi.

Hayo yalisemwa mwishoni mwa wiki iliyopita na Naibu Waziri Ofisi ya Rais, Tawala za Mikoa na Serikali za Mitaa (TAMISEMI), David Silinde, wakati wa ziara ya siku moja ya kukagua shughuli za miradi ya elimu wilayani Iramba, mkoani Singida.

Silinde, alisema ni jukumu la kila mtumishi wa umma, kufanya kazi kwa uaminifu na uadilifu kwa mujibu wa maadili ya kazi huku akiwataka kuepuka ubadhirifu na hujuma ya kukwamisha miradi ya maendeleo.

"Serikali ya Rais Dk. John Magufuli, imetoa fedha kwa ajili ya miradi mbalimbali kwa maendeleo ya wananchi wake, hivyo haitamfumbia macho mtumishi

Naibu Waziri aagiza chuo kizalishe manahodha wengi meli za uvuvi

NA MWANDISHI WETU

NAIBU Waziri wa Mifugo na Uvuvi, Pauline Gekul, ameutaka Wakala ya Elimu na Mafunzo ya Uvuvi (FETA), kuongeza kasi ya kuzalisha wataalamu watakaokuwa na uwezo wa kuendesha meli za uvuvi wa bahari kuu zitakazonunuliwa na serikali ili kuongeza ajira na kukuza uchumi wa nchi kupitia uchumi wa bluu.

Gekul, alitoa kauli hiyo alipofanya ziara katika ofisi za wakala huo, zilizopo wilayani Bagamoyo, mkoani Pwani, mwishoni mwa wiki iliyopita.

Alisema mpango wa serikali katika miaka mitano chini ya uongozi wa Rais Dk. John Magufuli, ni kununua meli nane zitakazotumika kwenye shughuli za uvuvi wa bahari kuu, hivyo ni muhimu kuongeza kasi ya kutoa wataalamu watakaenziendesha meli hizo pindi zitakapofika.

Aliongeza kuwa mwishoni mwa mwaka huu, meli ya kwanza itakuja, huku akisema haitapendeza kama vyombo hivyo vitakuja halafu pasiwepo na vijana watakaohusika na kuviendesha.

"Nchi inawategemea mtoe wataalamu watakaosaidia kuendesha meli hizo zitakazoletwa kwa ajili ya uvuvi wa bahari kuu, tunaomba mkatuzalishie wataalamu, ambao hatutapata upungufu wa wataalamu wa kuendesha vyombo hivyo," alisema.

Awali, akimkaribisha Naibu Waziri, Kaimu Ofisa Mtendaji Mkuu, Wakala ya Elimu na Mafunzo ya Uvuvi (FETA), Dk. Semvua Mzighani, alisema wameshaingia mkataba wa maridhiano wa viwango vya mafunzo na utoaji vyeti kwa wafanyakazi wa vyombo vya uvuvi wa mwaka 1995.

Alisema hatua hiyo itasaidia kutoa vyeti kwa manahodha wa meli, maafisa wa meli, mabaharia na waangalizi wa meli zitakazofanya kazi katika uvuvi wa bahari

kuu.

"Huwezi kuajiriwa kule kama hauna cheti cha kukutambulisha, hivyo kupitia maridhiano haya, mabahari watapatikana kutoka katika chuo hiki," alisema.

Dk. Mzighani, aliongeza kuwa kwa Afrika, vyo vinavyotoa mafunzo kwa wataalamu hao vipo Afrika Kusini na Misri, huku akisema ni wakati mzuri kupitia mafunzo yatakayotolewa hapa nchini, kuongeza ajira kwa vijana na kupata fedha za kigeni kupitia watu kutoka nchi nyingine watakaokuja kusoma katika chuo hicho.

Alisema licha ya mipango na mikakati mizuri wallyonayo katika kuboresha huduma zao, bado wanakabiliana na changamoto kubwa ya gharama za uendeshaji wa vyo vya uvuvi, hivyo aliomba serikali iwaongezee nguvu ili watoe wataalamu wazuri, watakaokwenda kulisaidia Taifa kukuza na kuimarisha uchumi wa bluu.

FETA watakiwa kuzalisha wataalamu uvuvi bahari kuu

**Na Mbaraka Kambona,
BAGAMOYO**

NAIBU Waziri wa Mifugo na Uvuvi, Pauline Gekul, ameutaka Wakala wa Elimu na Mafunzo ya Uvuvi (FETA) kuongeza kasi ya kuzalisha wataalamu watakaokuwa na urwezo wa kuendesha meli za uvuvi wa bahari kuu zitakazonunuliwa na serikali ili kuongeza ajira na kukuzi uchungu wa nchi kupitia uchumi wa bluu.

Gekul alitoa kauli hiyo alipofanya ziara katika ofisi za wakala zilizopo wilayani Bagamoyo, mkoani Pwani mwishoni mwa wilid. Alisema mpango wa serikali katika miaka hii mitano

chini ya uongozi wa Rais, Dk. John Magufuli ni kumunua meli nane zitakazotumika kwenye shughuli za uvuvi wa bahari kuu na kwamba ni muhimu kuongeza kasi ya kutoa wataalamu ambao wataziendesha meli hizo zitakapofika.

Aliongeza kuwa mwishoni mwa mwaka huu meli ya kwanza itakuja na kuwa haitapendeza kama vyombo hivyo vitakuja halafu pasiwapo na vijana watakaohusika na kuviendesha.

"Nchi inawategemea mtoe wataalamu watakaosaidia kuendesha meli hizo zitakazoletwa kwa ajili ya uvuvi wa bahari kuu, tunaomba mkatuzalishie wataalamu ambao wataendesha vyombo hivyo," alisema

Gekul.

Awali akimkaribisha Naibu Waziri, Kaimu Ofisa Mtendaji Mkuu, FETA, Dk. Semvua Mzighani, alisema wameshaingia mkataba wa maridhiano wa viwango vya mafunzo na utoaji vyeti kwa wafanyakazi wa vyombo vya uvuvi wa mwaka 1995 na hiyo itasaidia kutoa vyeti kwa manahodha wa meli, maofisa wa meli, mabaharia na waangalizi wa meli zitakazofanyakazi katika uvuvi wa bahari kuu.

"Huwezi kuajiriwa kule kama hauna cheti cha kukutambulisha, hivyo kupitia maridhiano haya sasa mabahari watapatikana kutoka katika chuo hiki," alisema Dk. Mzighani.

Vile vile, alisema kwa Af-

rika vyuo vinavyotoa mafunzo kwa wataalamu hao vipo Afrika Kusini na Misri na kuwa ni wakati mzuri sasa kupitia mafunzo yatakayotolewa nchini kuongeza ajira kwa vijana na kupata fedha za kigeni kupitia watu kutoka nchi nyingine watakaokuja kusoma katika chuo hicho.

Dk. Mzighani alisema pamoja na mipango na mikakati mizuri waliyonayo katika kuboresha huduma zao bado wanakabiliana na changamoto kubwa ya gharama za uendeshaji wa vyuo vya uvuvi na kuulomba serikali iwaongeze nguvu ili waweze kutoa wataalamu wazuri watakaokwenda kulisaidia taifa kukuzi na kuimarisha uchumi wa bluu.

TALIRI plans to install Centre for Dairy Excellence in Tanga Region

By Correspondent Valentine Ojara,

Jidoma

THE Tanzania Livestock Research Institute (TALIRI) is set to install a center for Dairy Excellence (CDE) in Tanga Region to help improve performance of the crucial socio-economic sector in the country, especially milk production.

The robust project, set to start with a seed capital of at least 424bn/- is projected to serve as a unique demonstration center for dairy farmers to embrace best dairy animal technologies and practices.

Acting General Director for TALIRI, Dr Jonas Kizima, yesterday said the publication that the institute has in talks with the government is intended for availability of the

needed seed capital amount, saying however the talks were at impressive stages, added that other funds for the timely initiatives was expected to be sourced from the government of Tanzania.

However, doors are open for stakeholders from within and outside the country to chip-in and invest in order to allow the project to be furnished with the best-ever technological facilities and services," Dr Kizima expressed.

He stated, the core focus is to enable the dairy farmers in the eastern zone region of Tanga, Dar es Salaam and Coastal to heighten their milk production levels by adopting cattle with good dairy animal genetics, but also embracing key other practices.

The TALIRI's chief boss itemized

some of the key dairy technologies the envisaged center will have in offering as best animal health services, animal compounded and feeds, animal husbandry infrastructures, milk handling, grazing systems and good dairy animal genetics, among others.

"We aspire to develop the center in a professional manner to be a major Demonstration Dairy Farm Center (DDFC) for all dairy farmers within the country. Moreover, the center will also be used to offer dairy tourism to different foreigners that will be touring in the country," he insisted.

Besides, he unveiled that among others, the state-owned institution has decided to install the crucial dairy facility in the region with an eye to help the Tanga Fresh Ltd

industry to process milk at its full capacity.

According to him, the famous factory's daily milk processing capacity was at least 120,000 liters, but due to poor supply of milk from dairy farmers the facility was only processing between 50,000 and 80,000 liters.

"The other reason is that Tanga stands tall among regions within the country with many dairy cooperatives and smallholder dairy farmers hence placing the facility there will assist them improving their daily executions, the move which will automatically manage the factory (Tanga Fresh Ltd) to start receiving needed fresh milk for processing," he added.

As the government is working tirelessly to industrialise the

country's economy by 2025, he said the institute in its side will run a diverse professional initiative to help improve performance of milk factories, possibly through increasing home milk production, the move which will also curtail milk importation.

Statistics from the Tanzania Dairy Board (TDB) depicts that during 2019/20, the country produced 3.01 billion liters of milk, out of which, 2.1 billion liters was produced from domestic dairy cows and 0.1 billion liters was from hybrid dairy cows.

However, Assistant Registrar of TDB, Noel Byamanga, said the milk produced in the country is still not reflecting the country's actual demand, hence propelling the country to import milk from other countries.

For instance, he said during 2017/18, Tanzania imported 20,520,537.58 LMEs Kg, value at 30,290,485,222/- and during 2018/19 the importation rate stood at 62,448,655Kg.

However, due to advancement of the UHT technology in Tanzania the country's Liquid Milk Equivalent (LME) importation has kept on declining.

However, record proves that Tanzania has successfully managed to increase the number of crossbred dairy cattle at the national level 3.8 times from 780,000 in 2017/18 to 1,294,882 in 2018/19, the development which witnessed the country's milk production expanding from 2.4 to 2.7 billion liters.

Gekul: Feta nataka wataalamu meli za uvuvi

Bakari Kiango, Mwananchi
bkiango@mwananchi.co.tz

Dar es Salaam. Naibu Waziri wa Mifugo na Uvuvi, Pauline Gekul ameitaka Wakala ya Elimu na Mafunzo ya Uvuvi (Feta) kuongeza kasi ya kuzalisha wataalamu watakaokuwa na uwezo wa kuendesha meli za uvuvi wa bahari kuu zitakazonunuliwa na Serikali.

Gekuli ambaye ni mbunge wa Babati Mjini alisema

hatua hiyo itasaidia kuongeza ajira na kukuza uchumi wa nchi kupitia uchumi wa bluu.

Taarifa hiyo iliyotolewa na wizara hiyo inaeleza kuwa Gekul alieleza hayo juzi wakati wa ziara yake katika ofisi hizo zilizopo Bagamoyo mkoani Pwani.

Gekul alisema mpango wa Serikali katika miaka mitano ni kununua meli nane zitakazotumika kwenye shughuli

MWANANCHI JAN 11, 2021

za uvuvi wa bahari kuu, hivyo ni muhimu kuongeza kasi ya kutoa wataalamu watakaoweza kuendesha meli hizo zitakapowasili.

"Mwisho wa mwaka huu meli ya kwanza itawasili, haitapendeza kama vyombo hivyo vitakuja halafu haku-na vijana wenye ujuzi wa kuviendesha.

"Nchi inawategemea mtoe wataalamu watakaosaidia kuendesha meli hizo zitaka-

zoletwa kwa ajili ya uvuvi wa bahari kuu. Tunaomba mkatuzalishie wataalamu ili tusipate usumbufu wa kuviendesha vyombo hivyo," alisema Gekul.

Ofisa Mtendaji Mkuu Feta, Dk Semvua Mzighani alisema wameshaingia mkataba wa maridhiano wa viwango vya mafunzo na utoaji vyeti kwa wafanyakazi wa vyombo vya uvuvi wa mwaka 1995.
